

## Unmanned Cargo Aircraft Conference

September 10-11, 2019

Greenville Convention Center

Greenville, North Carolina, USA

<https://unmannedcargoaircraftconference.com/>

This 8th edition of the Unmanned Cargo Aircraft conference organized by Jakajima will be hosted by Greenville Convention Center in Greenville, North Carolina, USA.

**Scope:** The Conference aims to bring together manufacturers, operators, knowledge institutes, consultants and government organizations active in the upcoming field of unmanned cargo aircraft.

Unmanned Cargo Aircraft (UCA) are a relatively new phenomenon; the first UCA service is to be started in Kenya this year. UCA offer the potential to transport loads of 1 to 10 tons or more over both short and long distances, on routes that are unfeasible or uneconomical for other modes of transport.

During the conference, internationally renowned speakers will introduce UCA development projects and potential applications.

### Topics to be covered are:

- UCA business models: how to earn money with UCA?
- UCA configurations:
  - Large / medium size
  - Last Mile delivery
  - Urban space delivery
  - Medical supply drones
- Regulatory / Legal issues
- What can UCA contribute to economic and social development?
- Market analysis
- Air Traffic Management (ATM) / UAS Traffic Management (UTM)
- Integration of systems / technologies required for UCA to operate

**Target group:** Shippers | Carriers | Harbour authorities | Research institutions | Military | Ship manufacturers | System Integrators | ICT suppliers | Logistic service suppliers | Entrepreneurs | Investors | Airports | Governmental Institutions | Cargo Companies | Fulfilment companies | Retailers | E-tailers | Consultants

It is a unique opportunity to exchange ideas and network with this pioneering community of unmanned cargo researchers, engineers, business developers and end-users.
